Headquarters : Bhubaneswar

Volume - 50

No. - 5 February - 2015

Poor, Poor humanity ! it reminds me of the old fable of the war between the body and its members; here too each limb of this huge 'orphan' - fatherless and motherless - selfishly cares but for itself. The body uncared suffers eternally, whether the limbs are war or at rest.

Masters of Wisdom

THE COMMON ORIGIN OF MAN

Enq.- *Then as a Theosophist you will take part in an effort to realize such an ideal ?*

Theo. - Certainly, what is also needed is to impress men with the idea that, if the root of mankind is one, then there must be one truth which finds expression in all the various religions

Enq.- *This refers to the common origin of religions, and you may be right there. But how does it apply to practical brotherhood on the physical plane ?*

Theo- First, because that which is true on the metaphysical plane must be also true on the physical. Secondly, because there is no more fertile source of hatred and strife than religions differences. When one party or another thinks itself the sole possessor of absolute truth, it becomes only natural that it should think its neighbour absolutely in the clutches of error or the devil. But once get a man to see that none of them has the *whole* truth, but that they are mutually complementary, that the complete truth

can be found only in the combined views of all, after that which is false in each of them has been sifted out-then true brotherhood in religion will be established. The same applies in the physical world.
